Link Energies, LLC	Tuesday, Feb. 7 th at 5pm
Blue Star Energy Solutions	TBD
Good Energy	TBD

All presentations are held at Dolton's Village Hall

What is electrical aggregation? Electrical aggregation is similar to bulk buying. In order to purchase electricity at a "bulk" rate, you have to "aggregate" --gather a bunch of people together to buy from the same energy provider. The Village of Dolton is gathering its residents in order to buy electricity at a bulk rate.

Why is Dolton considering this? To help reduce the cost of electricity for the Village and local residents.

Who do we call with questions? Village Administrator Bert Herzog
